REVEAL MURDER PLOT

Second Mob Fails to Get Negro From Jail at Pine Bluff

Sheriff Brewster Succeeds in Holding Off Several Hundred

2 SHOTS ARE FIRED

Angry Crowd Seeks Negro for Death of White Girl

PINE BLUFF, Ark.—(P)—A crowd of several hundred persons, mostly men, gathered about the county jail here Friday night asking for Sylvester Williams, 22-year-old negro, charged with rape and murder in the slaying of Miss Irene Taylor, 19-year-old Altheimer girl, early this month.

Sheriff Garland Brewster permitted one man in the crowd to go through the jail with him. The man after inspecting the building returned to announce that the negro was "not in there" but the gathering did disperse.

Two shots were fired in the air by an officer when a man in the crowd yelled "let's go get him." Authorities grappled with the man but he escaped, and his identity was not learned.

"You may get some of us, but you are not going on in," Brewster told the crowd. "If you try to come in about 50 of you are going to get killed."

The group began clustering about the jail at 10 p. m. Friday and at 10:45 p. m. was still there despite officers' pleas that it disperse.

It was the second time since the negro's arrest that a crowd had gathered about the jail asking that the prisoner be turned over to it. The first gathering occurred May 5, the day of the negro's apprehension, but at that time Sheriff Brewster told the crowd that the prisoner was not in the jail and it dispersed.

Five deputy sheriffs ringed the jail Friday night, one held a machine gun, the other rifles. A supply of tear gas was nearby.

Sheriff Brewster said that he had heard rumors earlier in the day that an attempt would be made to "lynch the negro."

Williams is scheduled to be tried May 25. Two other negroes have been charged with being accessories in the slaying.

Miss Taylor's beaten body, bound with wire and weighted with pieces of iron was found by searchers May 5 in a bayou near Altheimer after she had been missing from her home for several days.

Legion Team Will Play Texarkana

Official Opening Date Has Been Set for June 2

The American Legion baseball team of Hope will go to Texarkana to play a legion team of that city Sunday afternoon, according to Managers Raymond Urban and A. D. Russell.

The team has completed four weeks of training, and according to the managers, the team appears to be a strong contender for the state championship.

The outfit is composed of Roy White, Crit Stuart, Jr., and Bill Marlar. This trio has been showing up well in practice and are expected to add much batting punch. Pod Rogers and Beard are the utility outfielders.

The first base position will be handled by J. W. Booth, Raymond Bright and A. R. Slade are fighting it out for second base. Milton Crews will play shortstop in the absence of E. P. Young, Jr. who has a broken finger. Charles Patterson will play third base.

The catching duties will be handled by George Delaney and Emmet White. The pitching staff is composed of Ted Bell, Bob White and Lefty Booth.

The official opening of the season will be held June 2 when Smackover comes to Hope. The following merchants have contributed money to buy suits for the team:

Checkered Cafe, Archer Motor Co., City Bakery, Ritchie Grocer Co., Wylie's Mobil Service Station, Hope Basket Co., Hope Bottling Works, Moore & Hawthorne, City Market, Gunter Brothers Lumber Co., Hall Bros., Western Auto Associate Store, Cecil Wyatt Service Station, Hope Auto Co., Young Chevrolet Co., Hope Furniture Co., and J. R. Williams.

Fresh Details

The hearings based fresh details of the evidence prosecutors contend is piled up against members of the murder syndicate that reached into four states and took "up to 100" lives over a 10-year period. These details included:

1. Disclosure that four different poisonings were found in the exhumed body of Raymond Mandlik, a baker whose

King of England Receives Honors Canadian Senate

George Is First Ruler to Sit in Senate of Parliament

ANCIENT RITUAL

Queen Elizabeth to Lay Cornerstone of New Building

OTTAWA, (P)—Canada dug out of disarray Friday royal ritual dead nearly 100 years in order to see King George VI and Queen Elizabeth upon the thrones of Canada.

For the first time in history a British sovereign sat in the senate of the Canadian parliament as he sits in Westminster. In London he opens and prorogues parliament with state ceremonial, but here he gave only royal assent to bills passed through legislative processes.

Opposition members had balked at Prime Minister MacKenzie King's efforts to rush the business of the session for the adjournment, but agreed to recess until Monday.

Prior to the brilliant scene in the senate, King George had received the plaudits of Ottawa on a nine-mile drive through the city.

The group began clustering about the jail at 10 p. m. Friday and at 10:45 p. m. was still there despite officers' pleas that it disperse.

It was the second time since the negro's arrest that a crowd had gathered about the jail asking that the prisoner be turned over to it. The first gathering occurred May 5, the day of the negro's apprehension, but at that time Sheriff Brewster told the crowd that the prisoner was not in the jail and it dispersed.

Sixes cleared during the afternoon but the royal visitors made their drive through a light drizzle, the king saluting, the queen smiling and bowing from the open landau drawn by four horses with postillions.

Sheriff Brewster said that he had heard rumors earlier in the day that an attempt would be made to "lynch the negro."

Williams is scheduled to be tried May 25. Two other negroes have been charged with being accessories in the slaying.

Miss Taylor's beaten body, bound with wire and weighted with pieces of iron was found by searchers May 5 in a bayou near Altheimer after she had been missing from her home for several days.

After the drive through the city to government house, they will rest until time for the garden party which will give official Ottawa an opportunity to see their sovereigns at close range. Another government banquet will end the day.

Sunday morning the queen will unveil Canada's national war memorial in Confederation square before the royal train moves on to Kingston and Toronto.

Only mail will be carried in the beginning. But by July 1 Pan American Airways, to which a government agency awarded a "route certificate," expects to be selling transatlantic tickets over the counter. The schedule calls for two round trips a week.

On the so-called "Southern route" by way of the Azores, Lisbon, and Marseille, the elapsed time is expected to be less than 40 hours. On the "Northern route," by way of Botwood, Newfoundland, and Foyne, Ireland, the flights will be made in about 24 hours.

The fare remains to be announced, but officials said it probably would be between \$350 and \$500.

The airplanes to be used are all 41/2-ton flying boats, with accommodations for 74 passengers on short hops. The number will depend on the route followed and on weather conditions, but the maximum will be about 35.

Capt. A. E. La Porte will be in charge of the Clipper, scheduled to leave New York for the Azores at noon. His first officer, also holding a captain's rating, will be C. A. Leber.

Colonel Lindbergh is expected to be present for the takeoff ceremonies.

Mayors to Meet and Ask Additional Tax

PHILADELPHIA, (P)—Seventeen men and women, including three widows of poison victims and a tailor detective charged with witchcraft and death. Another defendant, a woman, halted her trial by pleading guilty to three poisonings.

Friday's dozen additional indictments left an equal number awaiting grand jury action on murder or conspiracy charges.

Mrs. Carina, 45, arrested in New York Thursday, was held without bail on a charge of poisoning a common law mate, Pietro Stea. Detectives are investigating whether other men in her life suffered similar deaths.

Fresh Details

The hearings based fresh details of the evidence prosecutors contend is piled up against members of the murder syndicate that reached into four states and took "up to 100" lives over a 10-year period. These details included:

1. Disclosure that four different poisons were found in the exhumed body of Raymond Mandlik, a baker whose

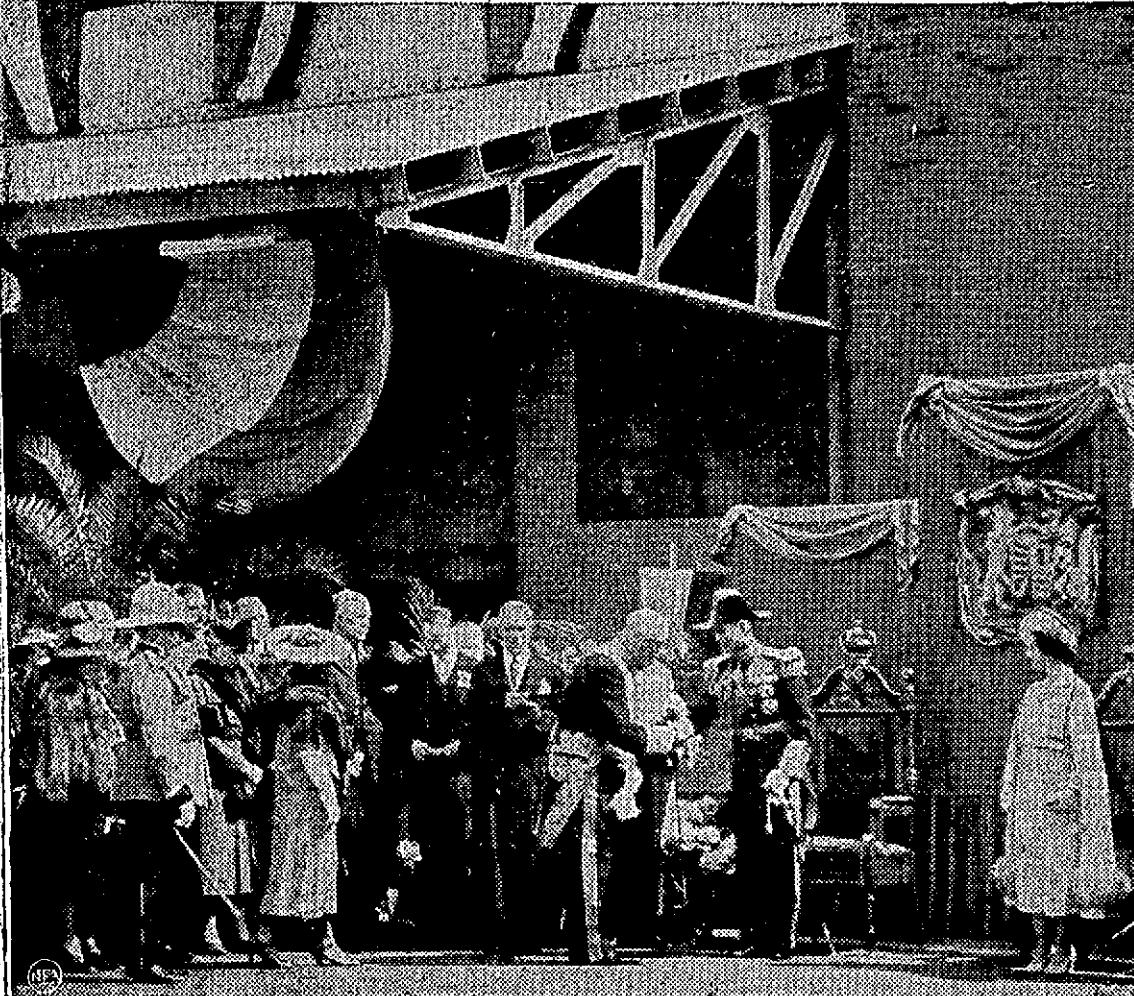

plane has landing gear for any occasion

WICHITA, Kas.—(P)—Landing conditions will have to be pretty unusual before this plane has anything but happy landings.

It has three types of landing wheels. Plus pontoons for water. Plus skis for snow and ice.

It's being built by a Wichita plane manufacturer for a Canadian customer.

Canada's Welcome to Royalty

Temporary thrones were set up under the canopy on the dock at Quebec as Canadian dignitaries welcomed England's king and queen.

Ocean Air Service Begins Saturday

Schedule Calls for Two Round Trips Each Week

NEW YORK, (P)—Regular air transport service over the Atlantic linking the old and new worlds starts Saturday.

Planned for 10 years, the service will be inaugurated with departure of the "Yankee Clipper," 41/2-ton flying boat carrying a crew of 14.

On the twelfth anniversary of the day Col. Charles A. Lindbergh pulled his little monoplane off the runway of a Long Island airport and set his course for Paris, the giant airliner will start a shuttle service between Southampton, England, and Baltimore and New York.

Only mail will be carried in the beginning. But by July 1 Pan American Airways, to which a government agency awarded a "route certificate," expects to be selling transatlantic tickets over the counter. The schedule calls for two round trips a week.

On the so-called "Southern route" by way of the Azores, Lisbon, and Marseille, the elapsed time is expected to be less than 40 hours. On the "Northern route," by way of Botwood, Newfoundland, and Foyne, Ireland, the flights will be made in about 24 hours.

The fare remains to be announced, but officials said it probably would be between \$350 and \$500.

The airplanes to be used are all 41/2-ton flying boats, with accommodations for 74 passengers on short hops. The number will depend on the route followed and on weather conditions, but the maximum will be about 35.

Capt. A. E. La Porte will be in charge of the Clipper, scheduled to leave New York for the Azores at noon. His first officer, also holding a captain's rating, will be C. A. Leber.

Colonel Lindbergh is expected to be present for the takeoff ceremonies.

With flags of two nations, Canada and Britain, this loyal subject waves greetings to King George and Queen Elizabeth at Quebec.

Mayors to Meet and Ask Additional Tax

LITTLE ROCK, Ark.—(P)—Representative Ben Brickhouse announced he would ask Mayor J. V. Satterfield to call a meeting of Arkansas mayors to initiate a constitutional amendment permitting cities to lift themselves from financial crises by doubling their millage tax.

The request will be made at a meeting of the Little Rock city council's finance committee called to consider the city's distressed financial plight.

"I Had, One Time, A Lovely Fatherland . . ."

Everyone who has known or sung the infinitely sad and tender songs of the Germany of the Brothers Grimm, of Hebel, or of Schumann, knows the one that begins "Ich hattet ein schoenste Vaterland" ("I had, one time, a lovely fatherland").

It is filled with that haunting, melancholy sentimental longing of an idealized homeland that is one of the most ingratiating things about people of German origins. They seldom think that perhaps, like the mystic father-land of the song, "It was a dream."

Hence it is particularly repulsive to see this feeling being deliberately used as a wedge by organizations in Germany to gain information about Americans of German origin which could easily one day be used against them or their relatives or friends, and which most certainly is being used to prejudice them against the country of their adoption.

The techniques by which those who respond with fan-letters to German short-wave stations are all catalogued for purposes best known to the German propaganda service, is well known. But a further development of the technique has now been revealed in pamphlet material being circulated by organizations in Germany to Americans who left that country as long as 40 years ago and who perhaps see good American citizens for almost that long.

To a one-time Swabian comes, for example, from Stuttgart, and an attractive brochure, describing in nostalgic terms the beauties of Germany, especially since 1933. It contrasts an assumed difference to these people's welfare in their present lands, assures them of the continued solicitude of Germany. Playing on those chords of sentiment which lie hidden in every German-blooded person, the propagandists work up a mood of longing and reminiscence. Then comes the catch.

Included in the brochure is a questionnaire, which the reader is asked to fill out and return to Germany for somebody's files. It wants to know things like this: full name, exact address, calling, when and where born, religious faith, name and birth-date of children, ancestry of wife, names and dates and place of destination of other relatives who emigrated from the same region. And last but not least, what real estate does the family possess?

It is not likely that very many American families of German origin will return any such information as this to any German bureau for filing. For it is hard to imagine any legitimate reason why anyone in Germany should want it.

But there are other reasons which can be easily imagined. It might be used in "extracting Jewish blood," in blackmailing families still in Germany, in engineering the confiscation of property. And it unquestionably is being used in building up a vast anti-American propaganda machine in this country.

It is clear that Germany learned nothing from the failure of its propaganda in the United States during the World War. The lesson it should have learned is: All such impudent and impudent meddling with American citizens, even those who retain a sentimental attachment for the Germany they remember, is not only useless, but builds up resentment against the country it aims to help.

Compensation

I find with the passing years My pace is just a little slowed; I may not see so far nor fast, But . . . I see more along the road.

The Pat Cleburne chapter, U. D. C. will hold a Memorial Service at 2:30 Sunday afternoon, May 21st at Rose Hill cemetery. In case of rain, the service will be held at the city auditorium.

The W. M. U. First Baptist church will meet at 2:30 Monday afternoon in Faith Hall, South Main street.

Rev. and Mrs. Wallace R. Rogers of Vicksburg, Miss., arrived Saturday and will be week-end guests of Mr. and Mrs. L. F. Higginson. Rev. Rogers was former pastor of First Baptist church and will preach the dedication sermon at the church, Sunday morning at 10:45.

Dr. and Mrs. T. D. Brown of Louisville, Ky., will arrive Saturday afternoon and be guests of Mr. and Mrs. C. F. Routon Sr. for the week-end. Dr. Brown is a former pastor of the First Baptist church and will preach Sunday evening at 8 o'clock.

The members of St. Mark's Episcopal church and a few invited guests enjoyed a very delightful picnic Friday evening at the Country Club.

Mrs. Charles Haynes, Mrs. J. J. Battle, Mrs. Gus Haynes, Mrs. J. G. Martindale, Mrs. R. E. Cain, Mrs. Willbur Jones, Mrs. Chas. Locke and Miss chapter, D. A. R., motored to Prescott Friday afternoon and attended a tea, given by the Benjamin Culp chapter, D. A. R. at the home of Mrs. J. B. Hesterly.

Mr. and Mrs. Noely Black of Shreveport, La., arrived Saturday to spend the week-end with Mr. and Mrs. Gus Haynes and Mr. and Mrs. Terrell Cornelius.

Mrs. R. V. Herndon Sr., Mrs. L. W. Young, Mrs. C. C. Lewis and Mrs. E. P. Stewart left Friday for Clanton, Ala., where they will be house guests of Mrs. Arthur Johnson for the next ten days. En route, they were Friday night guests of Mr. and Mrs. Jack Stewart in Vicksburg, Miss.

Friday afternoon at the Country Club, the Brookwood P. T. A. sponsored a very delightful and successful benefit bridge. The card room was beautifully decorated in the P. T. A. colors, blue and yellow, and 24 tables were arranged for the players. Table prizes were handmade dainty aprons, and the grand prize a case of Coca Cola went to Mrs. R. S. Powell, the cut prize a week's pass at the Saenger theater went to Mrs. Thos. Kinser. Coca Cola and cookies were served during the afternoon.

The Clara Lowthorp chapter, C. of C. will participate in the memorial service Sunday afternoon at Rose Hill cemetery.

The regular monthly meeting of Circle No. 4, W. M. U., First Baptist church was held at the home of Mrs. A. C. Kolb, South Main street, with Mrs. Fred Fomby as joint hostess. The meeting opened with prayer by Mrs. L. F. Higginson, after which, Mrs. John Britt conducted the business period. Mrs. Fomby gave a most interesting review of two chapters of the Mission study book. A delightful

Germany Is Cold

(Continued from Page One)

ployes of the frontier region who, by their willingness to make personal sacrifices, have presented a fine example of National Socialism's co-operation in a cause."

At the railway station of Elfringer the führer was surrounded by some of Germany's highest army officers and to them he repeated he was "hundred per cent certain" the "west wall" could not be taken by any enemy.

The "Decisive Hour"

COLOGNE (AP)—Propaganda Minister Goebbels told a group of Nazis in a bitter two-hour speech "We do not believe that in the decisive hour democracy will be longer-winded than we are—it is weak in the chest."

"We regret the panic in other nations," he said. "It is not for us. We have no reason to be restless. The German nation can trust blindly in the führer."

Goebbel said that the German army is "the strongest military power in the world," and added that "the German people don't know at all how strong it is, and cannot know."

"When one reads Polish newspapers," he said, "one comes to the conclusion that the Poles do not know it yet either. They don't know at all what they threaten when they point the way to Berlin with their bayonets."

"Such silly, childish political infants should be taught with a whip on the pants."

At the evening hour the pastor will speak on "Preparation to Meet God."

If you are a Christian casting about for a church home and want to get in one that stands for something, we invite you to consider us. We are endeavoring to follow the New Testament standards and the Lord is blessing us.

You are welcome to attend our services regardless of who you are, or what you are.

ST. MARK'S EPISCOPAL

Sunday School 9:45. Morning prayer, services conducted by lay reader at 11 o'clock.

FIRST CHRISTIAN CHURCH

V. A. Hammond, Pastor

Because so many folks were away visiting mother last Sunday's attendance in the Sunday school was way below the average for several weeks past. Supt. Lloyd Coop says that with 180 on the rolls the Sunday school should never fall below the 100 mark. And it will not—it you do your part.

The pastor will speak Sunday morning on "Hulmility." Humility was a fundamental in the teachings of Christ and it was a principal characteristic of His life. It was the dominant characteristic of the ministry of the Apostles and it must be a fundamental trait in the lives of modern Christians. The world today is looking for "the print of the nials" in the life of the individual Christian. Come hear the sermon Sunday morning.

All classes of the B. Y. P. T. C. meets at 7 p. m. Make your plans to attend this service and let us all be on time.

Our revival meeting is to begin the first Sunday in June. Rev. E. B. Jones will do the preaching, and Mr. Fred Hardy will conduct the song service. We urge all Christian workers to join us in prayer for this meeting. Rev. Jones is a great preacher and well known in this section. Make your plans to attend this meeting.

The morning worship service will close with the observance of the Lord's Supper. Every Christian is

The SNAPSHOT GUILD

SPRING BLOSSOMS

Blossoms add a charming seasonal quality to your springtime snapshots. Make a collection of such snaps this year—they're welcome in any album.

ANOTHER winter has passed into history, and spring is coming in. Soon many trees will be masses of blossom, early flowers will appear, and we will face picture opportunities that occur at no other season.

Any camera can be used for taking pictures of springtime blossoms. Usually, the best blossom pictures are close-ups, and we should always avoid the temptation to include too much. A single graceful branch generally makes a better picture than a whole orchard.

For these close-ups, a portrait attachment will be needed if you use a box or fixed-focus folding camera. Such an attachment is also helpful with focusing cameras. Another useful device is a short tape measure, since in a close-up the distance from camera to subject must be correct. A pocket range finder is even more convenient for measuring distances.

Lighting is important. Straight overhead sunlight should be avoided.

John van Guilder

Monkey Business Makes Sense to Him

That the monkey "is a warehouse of spare parts for the whole human body" was declared by Dr. Serge Voronoff, whose monkey gland operations won him international fame. He is pictured with Mrs. Voronoff when they recently arrived in New York.

way to Berlin with their bayonets. "Such silly, childish political infants should be taught with a whip on the pants."

Giant Bonneville Dam Packs Plenty of Power, but Lacks the Outlet for It

By NEA Service

BONNEVILLE — The first units in what will ultimately be the greatest public power project in America are all set up and ready to go. They have everything they need—except customers.

Which is to say that the great Bonneville Dam project on the Columbia river is running into a certain amount of sales resistance.

The authorities in charge don't think that this will last very long or be very serious, but for the moment at least, the project is troubled by lack of outlets for the electric power it is generating.

Market to Grow

Two 46,000-kilowatt generators have been installed at Bonneville. Two more have been authorized and appropriated for. Eventually, there will be 10, with a total output of 460,000 kilowatts.

A pretty good market will be available when public transmission lines now planned or under construction are finished. The general plan is to drop a line 400 miles down-river to Portland, sending a spur line southward to Eugene, Ore., which already has a publicly-owned power system, and shooting another line up into Washington to the Tacoma area.

But even when these lines are finished, there will be obstacles to hurdle.

These centers principally around the creation of public utility districts. The general plan is for a group of neighboring towns, townships, and villages to club together to form such a district, which can buy Bonneville power and distribute it to its members. Sometimes a county will form a district or a group of counties.

District Dilemma

In Oregon, until recently, it was practically impossible under the law to form such a public utility district at all. The law permitted it, but imposed certain restrictions—such as a provision that, if one township or other unit in a proposed group should vote against the proposition, the district could not be created, even if all the other units favored it.

This law was slightly liberalized by the state legislature this past winter, but the Bonneville authorities are still somewhat pessimistic about it.

In Washington, 14 districts recently voted on the question of buying Bonneville power for public distribution. The private power companies campaigned strenuously against it, and the result was a 50-50 split, the project losing in seven districts and winning in seven others.

As a result of all this, therefore, the number of sales outlets for the Bonneville power is not as large as the Bonneville people would wish.

Robert W. Beck, chief engineer of the Bonneville project, has been discharged by Secretary of the Interior Harold L. Ickes, who put Frank Banks in his place. Beck had favored using lengthy negotiations before resorting to condemnation proceedings to place private utility companies in the government's public utility districts.

Will Prosperity Flow in?

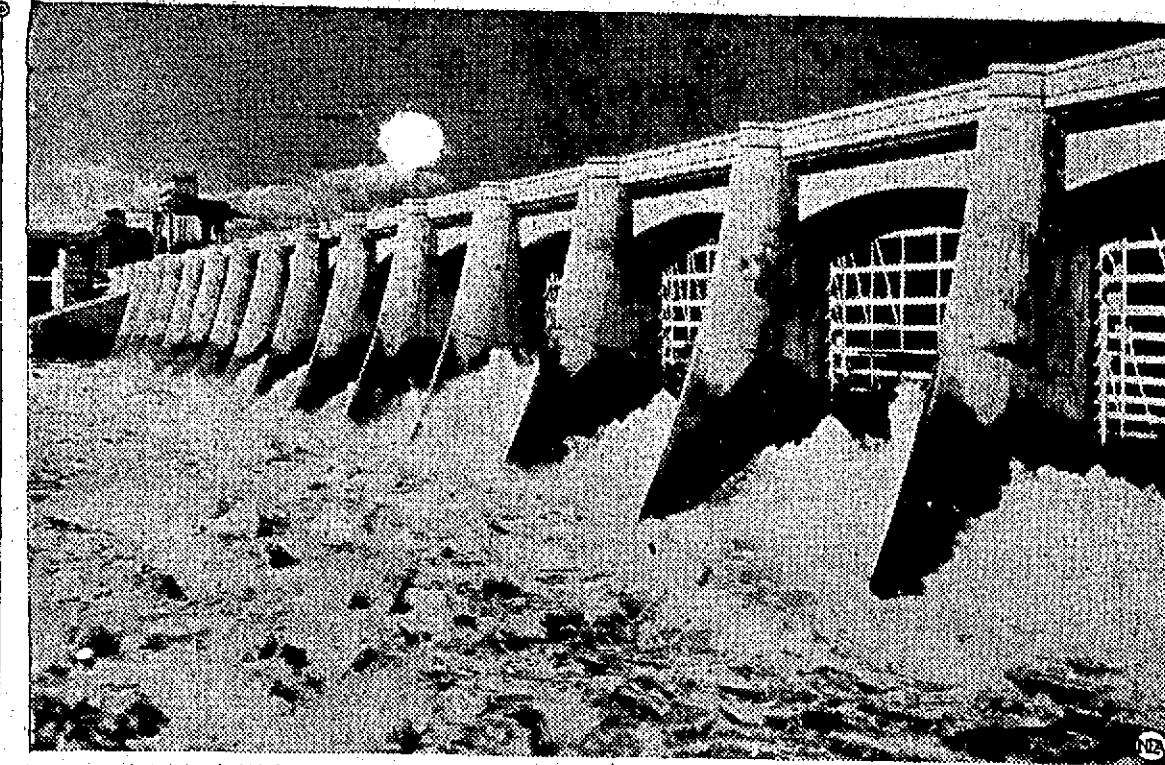

Nevertheless, the Interior Department (which has this northwest public-power project under its wing) sees big things ahead for Bonneville and its upstream big-sister, Grand Coulee.

Certainly, the physical potentialities are staggering enough.

When Grand Coulee is finally completed, it will have 18 generating units of 100,000-kilowatt capacity each.

Grand Coulee and Bonneville will be joined by a transmission system making the total amount of electric power available 2,260,000 kilowatts.

Public power enthusiasts in the northwest are dreaming elaborate dreams for the future. The population of the region is growing, due partly to extensive migration from the "dust bowl" and other ill-fortuned regions in the east. As a result of Bonneville navigation-aid characteristics (it has, just incidentally, one of the largest single-light locks in the world),

Turbulent, rushing waters of mighty Columbia river pound against locks of Bonneville dam.

How Soon Should Couple Have Their First Child?

Perhaps the hottest spot in Europe today is the Free City of Danzig—and one of the hosts-headed leaders in Europe is the Nazi "gauleiter," or boss, of that area, 37-year-old Albert Forster.

By LYDIA GRAY SHAW

AP Feature Service Writer

The movies may call babies little bundles of heaven, but organizations like New York's Maternity Center Association know that having babies and paying for them is a pretty earthly matter.

So, when a young wife asks them, "How soon should we have children?" their answer is unequivocal. Not the first year. They hold to that, even though statistics have it that first babies come into the world with a greater degree of safety if the mother is under 30.

"Look at Mrs. L.," says Miss Hazel Corbin, general director of the association. "Had her first baby the other day, in minimum labor time, and she's 41!"

"Of course," she adds, "a woman that age needs excellent obstetrical care. But it can be done."

Why a Year Should Elapse

Why wait a year for the first baby? Because says Miss Corbin, it's most important that husband and wife have that time to become adjusted to each other. Even the healthiest and best-behaved baby changes a couple's routine. And if they haven't had time to get used to each other's idiosyncrasies before the baby arrives, that'll be trouble.

According to Miss Corbin, this pre-parenthood temperamental adjustment is much more important than the financial problem a baby creates.

The size of the community and its hospital organization influence the costs. If the couple has access to a hospital care—not all hospitals do—they can finance a baby for as little as \$32.50 in smaller localities; in larger cities the minimum cost may run as

upper Columbia is now navigable to ocean-going steamers.

When Grand Coulee is finished, the river will have a constant depth of water the year around. All in all, the power enthusiasts foresee the development of a rich, active industrial region in the Bonneville-Grand Coulee area.

Lonely Princesses

Yesterday: Walking home, Ladd decides to launch an offensive on the Janice French case, orders Mary to write a follow-up for the next day.

CHAPTER X

THE telephone in Mary Franklin's bedroom buzzed unpleasantly. She reached lazily across the bed.

"Hello," her voice trailed off vaguely.

"Mary, this is Tom Ladd." The managing editor's tones carried impatience. "I've been trying to get you for 15 minutes."

"I must have been asleep," she said drowsily.

"Don't you keep anyone there to answer the phone?"

"Sometimes. What do you want?"

"See Janice's mother and father before you go to the Dove. I want an interview with them for tomorrow. We've got to spring this thing quickly after all. Step on it." The receiver banged up.

May lay still. The phone had roused her from a deep sleep. She glanced at the clock. It was half-past six! She had gone to bed at nine that morning, too tired even to remember much about the breakfast at the Plaza. She recalled telling Freda, the maid, that she could have the evening off. Freda must have left at six. That was why there was no one to answer Ladd's call. She buried her face in her pillow. She never wanted to go out again. She wanted to stay quietly at home, protected from a world in which there were night clubs, racketeers, suicides and managing editors.

She must get up. She must get up. The words beat on her brain. Idly she studied her room, the white walls, the pink taffeta curtains, the delicate ivory furniture.

The apartment consisted of the two lower floors of a brownstone front in the East 40s. A door at the side led to the kitchen. In the rear was the dining room and off that the little garden. A small, winding black iron stairway curved up to the big living room on the second floor. Like the hall, the ceilings were high and the walls white plaster. The handsome dark pieces of old mahogany which she had inherited from her grandmother, showed well against this background. There were crimson velvet curtains at the windows and the carpet was also red.

This evening a fire flickered cheerfully in the old-fashioned black iron grate, casting pleasant shadows on the shelves of books which formed a wainscoting around the room. A door at the rear led to the bedroom.

MARY was silent. If she told him that she was on the Gazette he would refuse to say anything. But she did not have the heart to deceive him. The situation was too tragic.

"I write for the Gazette," she said slowly. "I knew your daughter. I saw her at the Dove practically every night."

"What do you want of me?" His voice had grown desperate.

(To Be Continued)

Washington Daybook

By PRESTON GROVER

WASHINGTON — It might be worth a good war just to have a chance to try out all the new legislative tricks that are being invented these days.

Latest in the field is the proposal of Senator Josh Lee of Oklahoma for funds to run the war, when it comes. He would make a survey of each person's wealth and then require him to pay out a certain per cent of it to buy Government bonds at low interest.

A half dozen generals and economists were hasty to remember that raising money wasn't such a hard job during the last war, what with Liberty bonds selling by the billions. They seemed to think Senator Lee was trying to raise money the hard way.

Then take the war profits bills. There are several of them: Senator Bone of Washington, one of the once famous Senate munitions Investigating Committee of early New Deal days, shaped up one and rounded up 50 Senate signatures to it—enough to pass it if ever it comes to a vote. It lowers exemptions and increases rates to a top of approximately 99
